

ADC RECONNECT

MARRIOTT MARQUIS | JULY 20 - 21, 2021

#ADCRECONNECT

ASSOCIATION OF
DEFENSE
COMMUNITIES

WASHINGTON, D.C.

WELCOME

We are thrilled to welcome over 300 attendees back to Washington D.C. to gather together once again. When we convened in San Antonio in February of 2020 for Installation Innovation Forum, we had no idea that would be the last time our organization would come together for over 18 months.

Over the next two days we hope you will take advantage of all the opportunities ADC Reconnect has to offer. You'll hear directly from DOD on the top issues affecting defense communities, learn about the policy and budget priorities that will shape the future of our Armed Forces, and perhaps most important of all – reconnect with your partners and peers.

We've planned the ADC Reconnect program around our new "One Community" agenda, which represents our commitment to creating great places for our military to live, train, and defend our nation. To learn more about what it means to be "One Community" visit the [federal outreach](#) page of our website.

Be sure to download ADC's two new reports: [Advancing Resilience for Defense Communities](#) (developed in partnership with Stantec) and [Moving Forward with Telework in the Defense Community](#) (developed in partnership with Jacobs).

Important Notice Regarding COVID-19 Safety at ADC Reconnect:

For the health and safety of everyone, we recommend all attendees follow CDC guidance regarding COVID-19, including specific recommendations regarding individuals who have not received a COVID-19 vaccination. Please visit [cdc.gov/coronavirus](https://www.cdc.gov/coronavirus). If you have or develop any symptoms of COVID-19 before or during the event, we request you do not attend the event.

Thank you for making Reconnect a safe environment.

Enjoy your time in D.C.!

NATIONAL PARTNERS

American States Utility Services, Inc. (ASUS) is a subsidiary of American States Water Company, an investor-owned utility company founded in 1929 and is publicly traded on the New York Stock Exchange under the trading symbol AWR. Through site-specific, client-focused, 50-year utilities privatization contracts, ASUS provides operations, maintenance and construction management services for water and wastewater systems at a growing list of U.S. military installations. Today we operate systems supporting more than 350,000 military and civilian personnel and their families. Through our wholly owned subsidiaries, we contract with the federal government to operate, maintain, renew, replace and construct water and/or wastewater systems on U.S. Army and Air Force installations in Texas (including areas of southeastern New Mexico), Maryland, Virginia, Florida, North Carolina and South Carolina. By providing reliable, safe, economical, and secure water and wastewater systems, we help the Department of Defense and the military services achieve their goals related to the conservation of resources, reduction of life-cycle costs and the availability and dependability of mission-critical infrastructure.

NATIONAL PARTNERS

Jacobs

At Jacobs, we think differently about the future. We start with “what if” to surface new possibilities and harness deep technical expertise to bring bold solutions to fruition because today’s challenges of urbanization, resource scarcity, climate change, digital proliferation and security demand innovative approaches to connect more people and places with the means to live better and work smarter.

Jacobs is a premier global consulting, design, engineering, construction, operations & maintenance, and technical services firm delivering advanced solutions for a more connected, sustainable world. As a Fortune 200 company with \$15 billion in combined revenue and a talent force more than 77,000 strong, Jacobs leads the global professional services sector providing a technical vision for installations of the future that add value to their surrounding communities.

[jacobs.com](https://www.jacobs.com)

We live, work, and raise our families in the communities our clients defend and sustain. That’s why, at Stantec, we always design with community in mind. Stantec unites more than 22,000 specialists working in more than 400 locations across six continents. We collaborate across disciplines and industries to make planning, facilities, infrastructure, environmental and energy projects happen. Our work – planning, engineering, architecture, interior design, landscape architecture, surveying, environmental sciences, project management and project economics, from initial project concept and planning through design, construction, and commissioning – begins at the intersection of community, creativity and client relationships.

EVENT PARTNERS

First Command Financial Services and its subsidiaries, including First Command Financial Planning and First Command Bank, coach our Nation's military families in their pursuit of financial security. Since 1958, First Command Financial Advisors have been shaping positive financial behaviors through face-to-face coaching with hundreds of thousands of client families. At First Command we are committed to helping service members and their families get their financial lives squared away, and to making a positive difference in the military community.

firstcommand.com

The Association of Military Banks of America (AMBA) is the only not-for-profit association dedicated to representing the interests of banking institutions serving the US military. AMBA's membership includes large and small national and state chartered banks, most operating on military installations and all insured by the Federal Deposit Insurance Corporation (FDIC). Founded in 1959, AMBA's roles include serving our members with training and other vital programs, acting as a liaison between our members and the Department of Defense as well as other federal agencies, and advocating for all military banks before Congress and other key federal entities. AMBA's banks provide important financial services to active-duty, reserve component, and retired military personnel and their families, at home and abroad.
